In this webinar, Dr. Hannah Holscher, PhD, RD, will explore the latest research relating to gastrointestinal microbiome and human health and provide RDNs with actionable strategies for counseling patients and clients.

Learning Objectives:

After completing this continuing education course, nutrition professionals should be able to:

1. Identify dietary factors that impact the human gastrointestinal (GI) microbiota.
2. Compare and contrast how different types of foods, which contain fiber, differentially impact the GI microbiota.
3. Evaluate the connection between the GI microbiota and health.
