EXCLUSIVE WEBINAR PRESENTATION
NUTRITION MANAGEMENT OF ADHD
 LEARN 1 CEU
 Presented by Wendy Phillips, MS, RD, CDR, CDE, FAND • Tuesday, June 13, 2-3 PM EDT

Attention-Deficit/Hyperactivity Disorder (ADHD) is a prevalent childhood neurodevelopmental disorder. The current practice is to manage ADHD with medications and possibly behavioral treatment programs. Nutrition interventions are rarely considered as treatments for ADHD, even though recent research shows promising results with supplementation of select nutrients. Moreover, traditional behavioral treatment programs for ADHD rarely include nutrition-related behavior management components. Increased awareness of the role that nutrition can play in the management of ADHD may promote the use of these valuable interventions to complement, not replace, medication management of ADHD.

Registered dietitians are uniquely qualified to work with the family to manage nutrition interventions for ADHD. In this practical webinar, **Wendy Phillips, MS, RD, CDR, CDE, FAND**, will review the scientific literature regarding nutrient supplementation and specialized nutrition interventions relating to ADHD. Attendees will be provided with practical, daily interventions for the family and person with ADHD as well as actionable solutions that RDs can provide to complement the family's values, patient care goals, and existing therapy.
